<b>Break Even Point (BEP):</b>	31.00 %
<b>TCI:</b>	558.00 Lakh
<b>Cost of Project:</b>	558.00 Lakh

Now-a-days people are turning to fresh-water fish such as rainbow trout, carp & tench. These fish make an attractive substitute for the unproductive gold fish, golden or golden rudd etc. The fresh water fishery resources consist of rivers, channels, irrigation channels, pools, lakes, jheels, tanks and low lying areas, which contain water. The sea food industry in India has come a long way and today a wide range of seafood products are exported to more than 70 countries in the world. The major fishes include shrimp, squid, cuttlefish, oyster, lobster and shark. Frozen shrimp continued to be the largest item of exports. It contributed 65.88% of the total exports of marine products from the country. The Indian seafood industry has undertaken a major exercise of up gradation of its facilities to meet new international requirements. India is a large exporter to the European Union, Africa, Middle East and China. There is a bright scope for starting new units in this field.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
