Rabbit Farming

Capacity:	133 Nos. / Day
Plant and machinery cost:	2.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	23.00 %
Break Even Point (BEP):	54.00 %
TCI:	20.00 Lakh
Cost of Project:	20.00 Lakh

Rabbit farming on a relatively small scale, involving minimal inputs, could make a substantial contribution to the supply of animal protein for human consumption. Rabbits are already being bred for meat in many countries. Rabbit skin represents a source of potential income to the producer if handled carefully. Rabbit farming is increasing commercially in many countries. Its production can be raised with the development of rabbit strains, more suited to the environmental conditions and of improved feed formulations based on locally available materials. Rabbit's production in developing countries is commonly based on low cost feeding using locally available feed stocks. Its skin is more value than the rest of the carcass. When processed properly and made into garment, rabbit skins are very attractive and command a high price. There is a good scope to invest into this project.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
