Cost of Project:	232.00 Lakh

Ginger is the most important and one of the oldest spices used in every kinds of food preparation. It is one of the agro-based products, which has good commercial as well as industrial value. It is used mostly in all of the houses as spices. It is processed by making paste and sterilized to keep it for long time. Ginger powder can be used as pharmaceuticals for the production of herbal medicines in the treatment of cold fever. It can be used for the preparation of different variety of spices formulations. Fresh ginger is some time used in the preparation of ginger wine and the juice is used as beverage. There are few organized and some private companies, who are engaged in the manufacturing of ginger paste and ginger based products. There is nearly 3-5% growth rate per year observed of this product. There is a good scope for new entrants.
