In ancient India, there was large use of water in the Tapovana, and different Ashrams in the forests. Elephanta caves in the Maharashtra can be considered as water park. Now the water park is the good idea of amusement. It is very good assets created by human being to enjoy the natural scenery artificially, if situated near by forest or hilly area. Water Park is the generic term for a collection of water rides and other entertainment attractions assembled for the purpose of entertaining a large group of people. A water park is more elaborate than a simple city park or playground, usually providing attractions meant to cater to adults, teenagers, and small children. A theme water park is a type of amusement park which has been built around one or more themes, such as an American West theme, or Atlantis. Today, the terms water parks and theme parks are often used interchangeably. Amusement water parks generally feature a few water rides, such as the log flume, bumper boats, and rowing boats. Such rides are usually gentler and shorter than roller coasters and many are suitable for all ages. Water rides are especially popular on hot days.
NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are:

- Pre-feasibility study
- New Project Identification
- Project Feasibility and Market Study
- Identification of Profitable Industrial Project Opportunities
- Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies
- Market Surveys and Studies
- Preparation of Techno-Economic Feasibility Reports
- Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required
- General Guidance
