Glycerine Monostearate is one of the most important fatty acid esters which is widely used in the manufacture of soap, detergent, cosmetic, paint, textile and many other industries. It is used thickening and emulsifying agent for margarine, shortening and other food products also it is used in flavouring, emulsifying agent for oils, waxes and solvents, protective coating for hydroscopic powders and it is also used in the manufactures of cosmetics, opacifiers, detackifier and resin lubricants. Glycerine stearate is produced in small scale sectors only as this item is reserved for small scale sector, by government of India. Being small scale item, market survey data, such as total installed capacity, capacity utilization, actual production consumption import-export, and demand supply gap are not available. Industry which already well developed consumes glycerine stearate in bulk quantity. All this factor shows that better prospects lies in this sector for new entrants.
