Urea Formaldehyde Resin (Powder)

Capacity:	1 Ton/ Day
Plant and machinery cost:	7.00 Lakh
Working Capital:	18.00 Lakh
Rate of return(ROR):	48.14 %
Break Even Point (BEP):	54.96 %
TCI:	36.00 Lakh
Cost of Project:	36.00 Lakh

The major applications of these resins are in adhesives, chip board making, paper industry, surface coatings, moulding powders, laminated plastics and miscellaneous. They have the advantage of initial water solubility, non flammability, hardness, resistance and absence of colour in cured polymers. Absence of colour makes them suitable for production of beautiful translucent shades of any colour. UF resin powder is used in button moulders, bottle caps, table ware crockery, switch gears etc. Demand is more than production hence consumption of UF resin is increasing day by day. This is a profitable industry, the raw materials and machinery being indigenously available. New entrepreneurs may enter UF resin production to reduce the gap between demand and supply.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
