The audio market can be divided into Ratio cassette recorders and player, (either mono and stereo) and compact disc (CD) player. Among all the three CD players are becoming more popular because it is based on digital technology as these days entertainment world is going digital. CD provides high quality of audio signals. CD players is the most radical change in recording technology. The compact disc, the product of a completely new sound recording technology has captured the imagination of the music industry in India. Compact discs gives high sound purity and have micro storage facility. There is good market for CD players. You can invest in this project.
