UPS and Invertors

Capacity:	2.0 Nos./Day
Plant and machinery cost:	3.00 Lakh
Working Capital:	31.00 Lakh
Rate of return(ROR):	61.32 %
Break Even Point (BEP):	43.20 %
TCI:	41.00 Lakh
Cost of Project:	41.00 Lakh

Various sophisticated electronic and mechanical equipment require continuous and unfluctuating power supply for effective functioning. Computer, fax machines, automatic teller machine, process control equipment and communication system etc. cannot tolerate break in AC power supply even for 1/10th of a second. The electrical power production in our country is much less than the demand. UPS consists of a converter and an inverter. The converter is a battery charger which has a step down transformer. Now a days there is very good demand for UPS and Invertors. There is good scope of new investment in this manufacturing line.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
