The application of essential oils are very extensive and cover a wide range of human activities. A few important uses are in the manufacture of soaps, cosmetics, perfume, confectioneries, perfumes, chewing delicacies aerated water and syrups. Besides perfumery application they are also used in pharmaceutical industry because of their antiseptic, carminatum varied from 0.5% to 1.5%. A vital pre requisite for successful marketing for these products is a thorough understanding of the channels and procedures by which the product pass from distillers/manufacturers to end users. This is an important as awareness of the size and breakdown of the market. There is need for new producer to establish and maintain, as early as possible.
