E-Waste Recycling Plant

Capacity:	2164500 kgs. /annum
Plant and machinery cost:	233.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	22.91 %
Break Even Point (BEP):	49.81 %
TCI:	500.00 Lakh
Cost of Project:	500.00 Lakh

E-waste is a popular, informal name for electronic products nearing the end of their useful life. While there is no generally accepted definition of e-waste, in most cases, e-waste comprises of relatively expensive and essentially durable products used for data processing, telecommunications or entertainment in private households and businesses. Electronic wastes, e-waste, e-scrap, or Waste Electrical and Electronic Equipment (WEEE) are a description of surplus, obsolete, broken or discarded electrical or electronic devices. WEEE has been identified as one of the fastest growing sources of waste in India, and is estimated to be increasing by 16-28 per cent every five years. So far the preliminary estimates by the National WEEE Taskforce suggest that total WEEE generation in India is approximately 1, 46,000 tons per year. This give rise to the demand of recycling plants to reuse/recycle the waste from electronics world.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes varies technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
