Mini Steel Plant with Production of Construction Bars

Capacity:	200 MT/Day
Plant and machinery cost:	1160.00 Lakh
Working Capital:	1577.00 Lakh
Rate of return(ROR):	94.00 %
Break Even Point (BEP):	40.00 %
TCI:	3255.00 Lakh
Cost of Project:	3255.00 Lakh

Modern steels vary greatly in their compositions, mechanical properties and it may be assumed that nearly all steel is produced for the benefit of some engineering uses. The most valuable metal in the economy of the modern world is steel bar and sariya is a very common and an important material being extensively used for building construction purposes. In the building construction it is mainly used while it is also partly used for other purposes like making grills, racks etc. It is expected that the years ahead will bring some cheer to this industry. So new entrants can go ahead for this project.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
